Class (Classroom) Location:

Lafayette Library and Learning Center (Oak Room)
3491 Mt Diablo Blvd, Lafayette, CA 94549

Meeting Time:

Two Night Classes: 7:00-9:00 p.m.
Two Saturday Field Trips: 8:00- Noon

Class Description/Objective(s):

This class will prepare you for the migrant treasure hunt and sharpen your birding skills by better understanding local bird distribution patterns in time and space during the Fall. We'll review how seasonal changes in various Bay Area habitats influence the birds you'll expect to find in the field. You'll get practical birding tips on what to look for throughout the seasons when "hunting" for migratory birds. At the end of this course you'll be better prepared to find local migrant and vagrant birds with confidence. Moreover, the principles you'll learn regarding bird distribution in relation to seasonal changes and habitats apply to any place you may explore around the world.
